### play/poetry!

This is where the kids see the words on the page “come alive” and in return have a kinesethic response and experience with written language!

This program consist of drama games which encourage students to work as an ensemble, support each other, and hone their public speaking skills. The games also build confidence and trust among the students and steer them toward having objectives and using tactics to obtain their goals. Poetry and/or monologues are introduced in the latter half of the workshop, which culminates in an open workshop style performance.

**This program is designed to meet the California State Content Standards for Theatre, as well as Language Arts and Social Studies standards when appropriate.**

Program: Ten 1-hour sessions

## PAT KRENKE

### Storytelling for All Ages

Grade Levels: K-6

Spark your students' imagination! Storytelling enhances literature, history, and creative writing. It helps bring cultures and common experiences to life. Stories can make you laugh, cry, smile, or sigh. You can wonder, discover, and change the ending if you want. My stories come from around the world, Africa, Japan, China, Scandinavia, and right here as well. They have surprise endings, lessons about life, and lots of fun. Audiences are asked to participate by singing or chanting when a story needs voices.

Cost: \$150 single / \$200 two assemblies  
\$300 all-day mix of assemblies

**Also Available: Workshops to help 4th or 5th graders become storytellers**

## MAGICAL MOONSHINE THEATER

Artist Instructors: Michael & Valerie Nelson

Phone: 707-363-4573

Web: [www.magicalmoonshine.org](http://www.magicalmoonshine.org)

### ISS - Inspiring Student Stories

Grade Levels: K-12

**This is a curriculum based writing inspiration program developed in Napa Schools by Napa Unified educators and principals with Magical Moonshine Theatre.**

It involves classroom workshops on writing as well as a culmination performance of a professionally produced puppet production written by students from the participating schools and is designed to support teachers in teaching framework writing skills.
